📍 Address

77 Wong Sawang Rd., Wong Sawang Subdistrict, Bang Sue District, Bangkok 10800

👤 Pesonal data

Nickname: Tae

Age: 21

Wieght,Height: 94kg, 174cm

Health: Excellent

Marital status: Single

Nationallty: Thai

Milltary status: Deferred due to education

📖 Skills

- Java
- Html, CSS, PHP
- MySQL
- ReactJS
- Github
- Microcontroller
- Electronic circuits design

🔍 Objective

I would like to do an internship in web application development or a microcontroller related field because I have some programming skills.

🎓 Education

2023-Present	Bachelor of Industrial Technology (Electronics Technology) King Mongkut's University of Technology North Bangkok GPA: 2.69
2021-2023	Hight vocation Certificate in Samut Songkhram Technical College major Computor Hardware GPA: 3.63
2018-2021	Vocational Certificate in Samut Songkhram Technical College major Electronics GPA:

Project

Driver Monitoring System

- Design and develop a system that uses AI to detect drowsiness, smoking, using the phone while driving, and picking up water bottles to drink. to monitor behavior using Image processing techniques
- Develop real-time alert systems to notify drivers in case of unsafe
- Write a website to display image data from the checks found by the trained AI model.

Semi-Automatic Systems Vegetable Care Plot

- Write an arduino esp32 program to control an automatic watering and fertilizing system.
- Write a program to control through the Blynk application and display water and fertilizer value data.

Green Oak Hydroponics

- Write an arduino esp32 control program with the blynk application to control the on/off of lights, control water pumps and fertilize, and write an automatic light control and check the water level.

💼 Internship Experience

Colo D Digital Network *Server Hardware Technician*	2022
Kham Ron Modifled *Audio Equipment Maintenance and Assembly Technician*	2020
